

coolseal
PACKAGING INNOVATION

It is now time for **CoolSeal** packaging to join in the revolution. The **CoolSeal** system saves money, saves time, saves storage, saves transport costs and saves the environment. **CoolSeal** is lightweight, impervious to water, carries high quality multi-colour printing and 100% recyclable.

CoolSeal leads the expansion in flying fish from Iceland
"In 2004 we flew about a 1000 tonnes of fresh fillets to Humberside and this year we will do about 3000-4000 tonnes."
Robert Tomasson, director of sales and marketing, ICELANDAIR

Average fillet temperature in polystyrene, CoolSeal and fibre board boxes held in a variable ambient temperature for 66 hours (top icing of fillets)
